

Healionics Receives ISO 13485 Certification

Seattle, WA (August 22, 2013) – Healionics Corporation today announced that it has achieved ISO 13485:2003 / EN ISO 13485:2012 and ISO9001:2008 certifications.

These internationally recognized quality standards are designed to ensure that medical device manufacturers have the necessary comprehensive quality management systems in place to safely design, develop, manufacture and distribute medical devices.

“ISO 13485 Certification represents a critical milestone for the design, development and manufacturing of our exclusive STAR[®] Biomaterials for medical device applications,” said Max Maginness, President and COO of Healionics.

About Healionics Corporation

Healionics develops and manufactures STAR[®] Biomaterials for implanted medical devices. The precisely controlled pore structure of the innovative STAR technology induces a favorable integrated healing response, overcoming fibrotic reactions and infection issues to enhance medical device performance and longevity. www.healionics.com
