

CEO Michel Alvarez to Introduce Healionics and Its Innovative STAR® Biomaterial at EuroMedtech 2009 in Düsseldorf, Germany

Redmond, WA, (May 14, 2009)— Healionics Corporation has been selected to present its innovative tissue regeneration and device bio-integration solutions for the first time to the medical technology community at EuroMedtech 2009, in Dusseldorf, Germany on June 3-4.

The two-day conference will allow an international audience the chance to learn about Healionics' proprietary STAR® (Sphere Templated Angiogenic Regeneration) biomaterial. In addition, this forum provides opportunities for fostering collaboration and growth in the medical device, biotechnology and pharmaceutical industries on an international level.

"We are excited to introduce our promising STAR® biomaterial technology platform to potential European partners and investors for the first time," says Michel Alvarez, CEO of Healionics Corporation.

More information about EuroMedtech 2009 can be found at <http://www.ebdgroup.com/emt/>.

About Healionics Corporation

Healionics is a privately held biomaterials company whose mission is to be the leading provider of tissue regeneration and device biointegration solutions to healthcare manufacturers. The Company's flagship STAR® - Sphere Templated Angiogenic Regeneration – biomaterial scaffold is a next generation biomaterial scaffold designed to enhance bio-integration and promote healing of implanted medical devices. Healionics Corporation is headquartered in Redmond, Washington. For more information, please visit <http://www.healionics.com>.
