

Healionics to Present at the Medical Technology Industry's Leading Conference – AdvaMed 2010 in Washington D.C.

Seattle, WA (October 6, 2010) Healionics has been chosen to present at AdvaMed 2010, held in Washington D.C. Oct.18-20. The conference brings together innovative medical technology companies, partners and investors. Healionics will be presenting on Oct. 19, at 9:40 a.m. in Room 204A of the Walter E. Washington Convention Center.

Following the Healionics presentation, we encourage you to attend the panel discussion on "Opportunities in Bridging the Gap between Body and Device – Eliminating Complications" at 10:45 a.m. in Room 207B. This highlights the \$30B per year problem addressed by our innovative STAR biomaterials.

The AdvaMed 2010 conference provides medical technology companies from around the world the opportunity to present at the leading conference designed by industry, for industry.

As a member of AdvaMed, Healionics is part of a highly respected organization that "advocates for a legal, regulatory and economic climate that advances global health care by assuring patients can have access to the benefits of medical technology." AdvaMed member companies produce 90 percent of the health care technology purchased annually in the United States and more than 50 percent of that purchased annually around the world.

"We are honored to be selected for the second year to present Healionics and our STAR[®] biomaterial technology platform. AdvaMed is a well-respected highly recommended trade association and I am excited to share the latest Healionics information with industry leaders," says Max Maginness PhD, CTO of Healionics Corporation.
